

MediaPOINTE’s Broadcasting Services enable channelized broadcasting to the world. This service is ideal for always on or programmed service from fixed locations. By using the MediaPOINTE DMR or DMR HD product line and our Broadcasting Services, you can offer high availability of content to your audience.

Cost is always the determining factor in the viability of a project. Our price model enables you to start with entry level pricing and scale with utilization. This enables projects to get off the ground with low start-up cost and you only get billed for capacity used. On the other side, if you have an existing project, MediaPOINTE’s Broadcasting Services offer cost effective price scaling - the more you use, the less per Gigabyte you pay. Additionally, once you peak over the minimum, we bill for exact usage. If 50.14 GB of content is streamed, you pay for 50.14 GB.

**Please Note:** You must have a Maintenance Package and have the current software version to qualify.

MONTHLY TOTAL USAGE	MSRP	DEALER
<b>COST PER GIGABYTE</b>		
2.0 GB	\$ 14.40	\$ 12.96
2.1 - 10.0 GB	\$ 12.80	\$ 11.52
10.1 - 15.0 GB	\$ 12.00	\$ 10.80
15.1 - 25.0 GB	\$ 9.60	\$ 8.64
25.1 - 50.0 GB	\$ 7.20	\$ 6.48
50.1 - 150.0 GB	\$ 4.50	\$ 4.05
151.0 - 250.0 GB	\$ 4.00	\$ 3.60
